Giorik Gas Bratt Pan with Manual Lifting Mechanism and Compound Tank Bottom

BG74CM

Features:

- Stainless steel tank with compound bottom (Fe430 and AISI316); Prounded corners; Exteriors and supporting structure made of steel throughout.
- Pan filling by means of filling tap and pipe.
- Steel lid with large handle.
- Stainless steel tubular burners with piezo ignition and pilot flame.
- Temperature controlled by thermostatic valve fitted with safety thermocouple.
- Height-adjustable steel feet.
- UNI ISO 7/1 R 1/2”

Specifications:

- Tank capacity: 50 Liters
- Temperature regulation: 100 to 330°C
- Cold water connection: 1/2"
- Volume: 0.9 m³
- Gas connection: 12 kW
- Electrical connection: 0.3 kW
- Power supply: VAC 230 / 50-60Hz / 1N
- Net Weight: 160 Kg
- Dimension: 800 x 700 x 900 mm
